### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION*****Election/Restrictions***

1. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

- Species A - The embodiment shown on Figure 1.
- Species B - The embodiment shown on Figure 4.
- Species C - The embodiment shown on Figure 6.
- Species D - The embodiment shown on Figure 8.
- Species E - The embodiment shown on Figure 9.
- Species F - The embodiment shown on Figure 10.
- Species G - The embodiment shown on Figure 11.
- Species H - The embodiment shown on Figure 14.
- Species I - The embodiment shown on Figure 16.
- Species J - The embodiment shown on Figure 18.
- Species K - The embodiment shown on Figure 20.
- Species L - The embodiment shown on Figure 22.
- Species M - The embodiment shown on Figure 24.
- Species N - The embodiment shown on Figure 26.
- Species O - The embodiment shown on Figure 28.
- Species P - The embodiment shown on Figure 30.

Art Unit: 3724

Species Q - The embodiment shown on Figure 33.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

2. The claims are deemed to correspond to the species listed above in the following manner:

Claim 1 - Species A, B, C.  
Claim 2 - Species A, B, C  
Claim 3 - Species A, B, C.  
Claim 4 - Species C.  
Claim 5 - Species A, B, C.  
Claim 6 - Species A, B, C.  
Claim 7 - Species F.  
Claim 8 - Species E.  
Claim 9 - Species G, H, I, J, K.  
Claim 10 - Species H, J, K.  
Claim 11 - Species K.  
Claim 12 - Species G.  
Claim 13 - Species M, N, O, P, Q.  
Claim 14 - Species M, N, O.  
Claim 15 - Species M, N, O.  
Claim 16 - Species P, Q.  
Claim 17 - Species P.  
Claim 18 - Species Q.

Art Unit: 3724

The following claim(s) are generic: None.

3. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: None of the claims appear to be generic, leaving no inventive link between the species and each of the species shows distinct embodiments that are not linked by a single general inventive concept.

4. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.
